BRITISH WORRIED ABOUT CANAL TOLLS

SIR AUCKLAND GEDDES RECALLED TO LONDON TO CONSULT OFFICIALS

Thought Canal Tolls Question Definitely Settled--Will Discuss Proposed Tariff--Also British War Debt to America and Opinion on Irish Question.

(By The Associated Press)
WASHINGTON, Jan. 15.—Recalled to London for the announced purpose of consulting with Premier Lloyd George and Earl Curzon, secretary of state for foreign affairs, Sir Auckland Geddes, the British ambassador in Washington, quietly and without notice to even close acquaintances, slipped away from Washington last night and sailed today from New York for England. Lady Geddes remained here with the children, thus bearing out the embassy statement that, according to present intention, the ambassador will return to Washington next month.

There is understood to be a number of subjects which will require earnest discussion when the ambassador reaches London. Among these is the project to free American ships in the Panama canal from tolls.

The British government had believed this matter finally and definitely disposed of in the early days of the Wilson administration, but now that the republican party platform and the utterances of President-elect Harding indicated a purpose to renew the effort to secure such privileges for American ships, it is regarded as possible that the British government will feel called upon to protest against any such invasion of what it has regarded as a solemnly pledged treaty right.

Will Consider Tariff Question.
The pending emergency tariff bill, especially in its probable effect on Canada it is also understood will be among other subjects taken up, as well as the probable attitude of the Harding administration toward the proposed termination of a score of commercial treaties.

Another subject for negotiation in the immediate future is the re-opening or conversion of the British war debt to America.

Finally it is believed to be probable that the British premier wishes to acquaint himself by the consultation with the ambassador with the exact state of public opinion in America regarding the naval programs and also regarding the Irish question.

Will Discuss Naval Policies.
The question of the naval policies of the United States and Great Britain will be one of the principal subjects discussed at the forthcoming conferences here between Sir Auckland Geddes, British ambassador to the United States, the prime minister, David Lloyd George, and Earl Curzon, the foreign secretary. It was stated in authoritative quarters today.

WORLD TURNING TO BUSINESS AS FORCE TO STABILIZE WORLD

This is the Belief of Official of the Standard Oil Company

SAYS AMERICAN BUSINESS SANE

(By The Associated Press)
NEW YORK, Jan. 15.—The world is turning to business as the real bulwark of civilization and as the one force which can start the wheels of progress going full speed again, A. C. Bedford, chairman of the board of directors of the Standard Oil Company of New Jersey declared in an address today before the Brooklyn chamber of commerce.

"The supreme problem of the world," he said, "is how to obtain maximum efficiency in production and distribution of materials and goods of which the world is in such sore need."

Mr. Bedford said that he had absolute confidence of better business conditions now that the bubbles of inflation and false prosperity are bursting.

"Here long," he said, "the clouds which now hang heavily over the world of industry will have been completely dispelled."

As a result of the war, Mr. Bedford said America had become "the very heart of the world's business." This condition, he said, represents a perilous situation because it places a heavy burden upon the American business structure.

The speaker said that in addition to expansion of American business the things upon which his mind was the necessity for sweeping reduction in governmental expenditures in all countries and re-establishment of peace and the economic equilibrium of the world.

"Business," Mr. Bedford concluded, "is taking the attitude of a life of excitement it is hard to resume the dull and prosaic life of pre-war times. However, I think we can be reassured in the soundness of American business in general."

Did not believe that American business had within itself the energy, the forcefulness, the intelligence and the power to work out its inescapable part in restoring the economic stability of the world. I should be greatly concerned over the future of civilization.

POLICE RECOVER STOLEN LOOT

DALLAS, Texas, Jan. 15.—The recovery of more than \$225,000 of loot and currency marked the investigation today into the robbery of a sub-postoffice station here last night. One member of the band of robbers, according to the police, is dead, another is in custody and four others are being sought.

The recovery of the liberty bonds and money followed the arrest of W. W. Scrivner who was found pinned under an overturned motor car near Gort Worth a few hours after the robbery. His companion, Pat Murphy, alias Rufus Clemons, alias W. W. Matthews, had been killed in the accident.

Scrivner, according to the police, confessed that he and Murphy with four others had taken part in the robbery and he led the detectives to a cache near Fort Worth where they had secreted the loot taken from the registered mail pouches with which they had fled in the automobile. The two had left their companions and were driving back to Dallas when their car was wrecked.

NO TRACE OF STOLEN MAIL SACKS

Mount Vernon, Ill., Jan. 15.—Post office inspectors from Chicago today joined local postal authorities in the investigation into the disappearance of several sacks of registered mail said to have contained hundreds of thousands of dollars in currency. No clue has as yet been found that could clear up the mystery surrounding the disappearance yesterday of the pouches on the way from the post office in the Chicago and Eastern Illinois depot it was announced.

O'CALLAGHAN IS PERMITTED TO LAND AS SEAMAN

Secretary of Labor
Wilson Makes
Ruling

PAROLED TO
HIS ATTORNEY

(By The Associated Press)
WASHINGTON, Jan. 15.—Ignoring the state department's order of deportation, Secretary of Labor Wilson today granted Lord Mayor O'Callaghan of Cork, who arrived in Newport News last week without a passport, permission to land as a seaman.

According to the ruling of the secretary of labor, the lord mayor is permitted to land "for the purpose of re-shipping on board any vessel bound for any foreign port or place, unless the secretary of state directs that he be kept on his vessel."

Surprised at the failure of the secretary of labor to recognize the formal ruling of the state department ordering deportation of O'Callaghan for attempting to enter the United States without a passport, acting secretary of state Davis tonight announced that he would order an immediate investigation of the ruling of the department of labor by the solicitor for the state department. Until an opinion is received from the solicitor, Secretary Davis said he would take no action toward directing that O'Callaghan be kept on the vessel upon which he arrived in Newport News.

Paroled Not Canceled.
In granting O'Callaghan permission to land to re-ship on a vessel bound abroad, Secretary Wilson further directed that the parole granted the lord mayor by the immigration authorities be cancelled and that he be surrendered promptly by his attorney, Judge Lawless, in whose custody he was paroled.

Judge Lawless said tonight that he had no intention of surrendering O'Callaghan until his attorney had been concluded before the commission from the committee of one hundred investigating Irish conditions before whom he appeared this week. It was for the purpose of testifying before this commission that O'Callaghan said he had come to the United States. It was further stated by Judge Lawless that he had previously received assurances from the department of labor that there was no reason why he should surrender O'Callaghan until the lord mayor had accomplished his mission of testifying on the Irish situation.

COST OF LIVING SHOWS DECREASE SINCE LAST JULY

And Here is a Little
Ray of Hope for
the U. C.

EXPECT FURTHER
DROP IN 1921

(By The Associated Press)
NEW YORK, Jan. 15.—The cost of living decreased 5.6 percent in the four months from last July to November and the decline was brought about by drops in the average prices of a number of important food and clothing articles so great as to offset concurrent increases in many other items, the national industrial conference board reported today.

This four months' decrease, however, left the cost of living higher than in July, 1914, immediately before the war by the following percentages:

Clothing 128, fuel and light 100, food 93, sundries 92, shelter 65.

Let It Ray of Hope.
In its eighth report on living costs the board let a ray of hope shine on its assertions by stating that merchandise dealers seemed to expect a further drop in prices early in 1921.

The decline of 5.6 percent in living expenses from last July said by the board to be the "peak of high prices," to November followed a steady rise which began in 1914 it was explained, except for a 3 percent drop in the four months period in 1918-1919 immediately after the armistice.

"The average price of food dropped nearly 12 percent between last July and November," the report said, "but the average price of potatoes dropped 42 percent and that of sugar 51 percent. The average price of eggs rose 51 percent."

The drop in clothing prices from last July to November was over 14 percent, but average prices of many items fell more than this. Cotton yard goods dropped 20 to 42 percent. Hosiery, men's shirts, women's blouses, muslin underwear and men's coats fell 22 to 25 percent; shoes, men's and women's suits and women's coats, knit underwear and hats decreased less than 20 percent. Gloves scarcely changed at all.

Other items increased, but not enough to offset the decline in food and clothing. According to figures furnished by 151 coal dealers in 50 cities the average price of coal continued to advance between July and November in every city except Lawrence, Lowell and Springfield, Mass., Newark and Trenton, N. J., and New York City where the price of coal dropped somewhat. In those same places the average cost of apartment houses rose 10 percent or more within the same period and in a number of cities the advance was 20 percent or over.

Rent increases continued to appear, but were less sensational than in preceding periods, and for the first time in many months decreases were reported. The industrial cities of Detroit, Lansing and Flint, Mich., Akron, Ohio, and Elkhart, Ind., reported a falling off in rents up to 20 percent in some cases.

"The average cost of all sundries rose slightly between July and November. Rates increases were allowed traction companies in some important centers, such as Philadelphia, Cincinnati, New Orleans, Portland, Ore., and Rochester, N. Y., and smaller places. Practically no decreases in car fares were reported. Occasionally newspapers advanced their prices. Church and organization budgets were increased. Notably decreases were reported in the cost of furniture, house furnishings and supplies."

CHICAGO INN KEEPERS SENTENCED TO PRISON

Chicago, Jan. 15.—John and William McGovern, owners of the Liberty Inn, were sentenced today by Federal Judge K. M. Landis, to serve two years each in the house of correction and pay fines of \$2,000 on contempt charges brought by the federal and state government. Judge Landis recently enjoined them from violating the Volstead enforcement act and federal agents testified that the McGoverns had violated the restraining order by selling liquor.

Clay Center, Neb., Jan. 15.—Plans were laid at a preliminary meeting here tonight for a mass gathering Monday night at which a program of opposition to the National Non-Partisan League campaign in this section will be determined upon. Officials of Ministry Strike

(By The Associated Press)
MADRID, Jan. 15.—Large numbers of officials of the ministry of finance struck today in consequence of the attitude of the government relative to their demands. Up to the present only Madrid and Tarragona have been seriously affected, but the discontent is showing itself in other districts and various employees in state departments are discussing the question of joining the movement.

A dispatch from Madrid Friday said employees of the various ministries were engaged in a conflict with the government over salaries, which the employees contended, should be paid in advance at the beginning of each month.

DEFINITE STEPS ARE TAKEN FOR DISARMAMENT

President Authorized
To Invite Nations
to Confer

SOME BELIEVE IT
UP TO HARDING

(By The Associated Press)

WASHINGTON, Jan. 15.—Definite steps looking toward disarmament were taken today by the house foreign affairs committee authorizing President Wilson to invite the nations of the world to send delegates to an international convention to consider ways and means of bringing it about.

Altho all members of the committee voted for the proposal, Democrats objected to its adoption at this time on the ground that it might embarrass the president.

They contended it was a question which more properly should be considered by President-elect Harding.

Chairman Porter, a warm advocate of the movement, insisted, however, that it was the desire to have the resolution ready for Mr. Harding in event Mr. Wilson did not act on it.

To Expedite Consideration.
Representative Brooks, Republican, Illinois, author of the resolution announced that efforts would be made to expedite its consideration by the house. There was no indication of any movement to get together with the senate which has pending a resolution by Senator Borah, Republican, Idaho, providing for permanent reduction by the United States, Great Britain and Japan and a resolution by Senator Walsh, Democrat, Montana, authorizing the president to appoint a member of the disarmament commission of the league of nations.

Members of the committee frankly doubt whether the Brooks resolution could be voted on at this session owing to the heavy run of appropriation legislation. Representative Flood of Virginia ranking Democrat said he saw no reason for the assumption that President Wilson might ignore the direction and mass the question on to Mr. Harding. He questioned the propriety of asking Mr. Wilson to act on the eve of leaving office and after the league of nations covenant providing for joint disarmament had been rejected by the United States.

Without much discussion the committee defeated an amendment by Representative Mason, Republican, Illinois, stipulating that countries now seeking their independence should be invited to the conference which would be held in this country. Mr. Mason said this would enable Ireland and the Philippines to participate.

Mrs. Charles Edward Russell of the Woman's Peace Society expressed the view that the Borah resolution in the senate was too limited and might breed suspicion in other nations. Chairman Porter contended also that all nations should participate in the conference and endeavor to disarm.

FORDNEY EMERGENCY TARIFF MEASURE IS BROADENED IN SCOPE

Will Include Practically All Farm Products
—Seven Amendments Are Tacked On to
the Original Bill—Joke Amendments are
Eliminated—In Senate's Hands Monday

(By The Associated Press)

WASHINGTON, Jan. 15.—The Fordney emergency tariff bill broadened to include practically all farm products instead of the limited number in the measure as it passed the house, was approved today by the senate finance committee which voted to report it to the senate Monday.

Seven amendments were added to the bill in today's session, making a total of ten which have been tacked on by the committee. No provisions of the original bill, however, were removed and rates on the major products, carried by the house bill, were left intact.

Opponents of the bill in the committee joined with the authors of amendments and forced the acceptance of most of them, despite opposition from the bill's defenders. There was no record vote.

It was said that the democrats in the committee with the exception of Senators Nugent of Idaho, and Jones of New Mexico, stood against reporting the bill.

The Amendments.
The amendments which finally were made a part of the measure by committee action includes:

Sugar, \$2.13 per hundred pounds until the retail price reaches ten cents a pound.

Frozen meats of all kinds, two cents a pound; all other meats 25 percent ad valorem.

Apples, twenty cents a box; cherries 4c a pound.

Tobacco, Sumatra wrappers and filters \$2.85 per pound; stemmed Sumatra \$3.50 per pound.

Butter and cheese and their substitutes, 4c a pound, instead of 6c provided in an amendment accepted yesterday.

The length of long staple cotton on which the tariff will be effective was reduced from 1 1/2 inches to 1 1/4 inches, the duty remaining at 7c a pound as the bill passed the House.

Cattle and sheep to be used for breeding purposes were exempted from the duty on imported animals.

Rice to be used in manufacture of canned goods was exempted from the tariff of 2c a pound levied in the House bill.

Attempts of several opponents of the bill to load it down with amendments dealing with extraneous subjects were unsuccessful.

Among those which the committee refused to accept were the bill recodifying the federal laws, the reclamation bill, the soldiers' bonus, and the committee draft of the proposed new immigration laws.

There was no attempt to change the life of the bill's provisions and little debate took place relative to whether ten months would be sufficient long term for the application of the law. Several republican Senators in anticipation of argument on this phase of the measure were said to have explained that the permanent tariff bill, now under consideration by the House ways and means committee would be whipped into shape before the expiration of the emergency law and that the latter would be automatically repealed.

BAY CITY, Mich., Jan. 15.—Six armed men robbed the Broadway Street Branch of the Bay County Savings Bank tonight, shot and killed L. M. Persons, state agent of the New Era Life Insurance association and Martin L. DeBate, president of the Valley Home Telephone company and escaped with loot estimated by bank officials at \$5,000.

The bandits headed toward Saginaw, according to the police. DeBate and Persons were the last depositors in the bank, which was about to close for the night. Persons had just turned away from the receiving teller's window and DeBate had taken his place when two men dashed thru the door and immediately opened fire, their first shots killing the only persons outside the teller's cage.

pectation of early relations with the federal court.
No Chicago directory has appeared since 1917 and one will not be printed this year, it is said, because of the high cost of both paper and labor. Chicago is less fortunate in this regard than some downstate cities—that is, if a new directory is considered a matter of good fortune.
Great Britain's ambassador to the U. S. has made a sudden return to his home country, probably for face to face consultation about several pressing questions. While the feeling of the U. S. government toward England is entirely friendly, there is also a feeling that the English statesmen have not hesitated to take advantage when the opportunity has been afforded. The interests of the U. S. first are soon going to receive greater attention down at Washington than has been true for the past few years.

A jury returned a verdict for \$20,000 damages against a firm which sold a drink of wood alcohol resulting in blindness. If the courts upheld this action, another blow has been struck for enforcement of the prohibition law.
The crime commission in Cook county has a report that 1920 showed a distinct lessening of murder and another violent crime. This report gives a distinct shock, as the reports current for months past about robberies and holdups and other crimes are fresh in mind.
A certain Illinois lawyer has written protest at Washington because Judge Landis continues to preside in the federal court and at the same time serves as supreme ruler in baseball. The attorney said a fine supply of hardihood or else he has no ex-

tutional convention that the law should make some provision which will require the people to express their views when questions are submitted at elections.
A SERMON FROM A BUSINESS EXPERT.
It is a matter of satisfaction that Roger Babson, business specialist of countrywide fame, takes a hopeful view of the present situation and advises that the greatest need of the country is a clearer knowledge that honesty and other forms of righteousness are the really basic things.
Mr. Babson has preached a sermon that will be more far-reaching in its effect than if the word had been spoken from many pulpits. This by no means reflects upon the ministry, for it merely means that certain classes of men will give ear to the Babson statement because it comes from a hard-headed, practical layman, a tried business expert. Coming from the pulpit, these men referred to, would think of the advice Mr. Babson has voiced as a mere homily—a reiteration of the things that the preachers have been saying year in and year out.

Rippling Rhymes

THE CAFETERIA
We stand with trays and wait our turns, a long, long line of hungry guys, while within us yearns for Hubbard squash and custard pies. Before us there are many jays who fool and fiddle, which is wrong; and so we wait and wave our trays and wish the bunch would move along. One graybeard can't make up his mind between roast pork and shredded veal, and while he doubts the mob behind must all the pang of hunger feel. One woman stops, a row to raise, because the soup is half-way cold; and while she jaws we clap our trays and feel ourselves grow frail and old. We all must wait until our turn, in vain are protests and appeals, though while we're waiting we could earn the price of fourteen useful meals. It is a modern way to feed, and modern things, we know, are best; old ways, old times, are gone to seed, old restaurants are but a jest. We used to journey home at noon, before old ways were proven frauds, but there devour the wholesome prune, surrounded by our houses hold gods. And then we'd have a little squeeze, to rest our bones so tried and sore, and, having slept, put on our shoes, and go downtown to work some more. But we've forsaken old time ways, from ancient things afar we roam; and now we stand and bug our trays, and wait until the cows come home.

MISS MOORE TO LEAVE ILLINOIS COLLEGE

Talented Violin Teacher Secured to Take Vacant Faculty Position.
The Woman's College regrets to lose from its music faculty Miss Clara Catherine Moore. She has been for several years an inspiring teacher, and has built up the violin department to a high degree of efficiency. The regret at losing her from the faculty is relieved by the fact that she will still be near and will still keep her interest in the college, and will assist on special occasions.
The College has been fortunate in finding as a successor to Miss Moore, Miss Beatrice Horsburgh, of New York City. Miss Horsburgh is a graduate of the violin school of Cesar Thomson, of Brussels, Belgium, and also a favorite student of the great violin teacher, Leopold V. Aber. She has done considerable concert work, and has for two years had a studio in New York. She has for several years been associated as violinist in the music of St. Thomas Episcopal church, giving recitals with Dr. T. Tertius Noble, its organist and musical director, who is a noted and well known composer.
Miss Horsburgh brings the highest testimonials, not only of exceptional musical ability, but of helpful personal Christian character. She has for some years been one of the directors of Camp Winnisquam, on Lake Champlain, a music and vacation camp for young women, and is now head councillor in this work.
Miss Horsburgh's mother will come with her, and they will have rooms in town. They are devoted and active members of the Episcopal church, and will be a great addition to the church life and the musical interests, not only of the college, but of the entire community. They are expected to arrive in about a week, by January 25 or 26. Arrangements will be made for Miss Horsburgh to give a recital soon after the opening of the second semester, February 1, which will be looked forward to with great interest by all the musical circles of the city.

ASSUMPTION COAL MINE IS CLOSED
Assumption, Ill.—(By The A. P.)—The Assumption coal mine, the deepest in the state, which has been closed for some time due to labor trouble, is about to resume operations. For the past several weeks, according to the owners, Silas A. Shafer, prospecting has been going on in an effort to locate Pana or No. 6 seam, a vein believed to be about 1600 feet down.
"We are drifting along Seam No. 6 trying to find out the extent of the fault in the seam," Mr. Shafer said. "We are hoping that the fault is not very wide and that we will be able to locate it that we can use the present shaft and equipment, without moving it elsewhere."
The coal mined from the Assumption mine has been declared by experts to possess the best burning qualities, but it is more expensive and harder to mine, Mr. Shafer says.
David Giger from the region of Arenzville paid the city a visit of the fault in the seam," Mr. Saturday.

PUBLIC HEALTH CONCERN OF ALL OF US

The progress made in medicine in the last few decades has been little short of marvelous. The unselfish efforts of men and women against the captious of disease and death have brought untold benefits to mankind. The sanitation of whole countries, like that in Panama and Cuba, has made possible the exploitation of the resources of nature. With wonder and deep thankfulness we have seen smallpox robbed of its terrors, yellow fever conquered, typhoid fever reduced to a disease of minor importance, most self-respecting communities.

These are some of the triumphs of disease prevention, but, alas, there remains much to be done. Some things are unaccomplished because of a lack of scientific knowledge and many because of inability of the part of society to apply the knowledge already at hand.

Seventy per cent of our people, says Dr. D. B. Armstrong of a need medical or dental treatment, but go without because of lack of proper medical organization. Recent surveys have shown that there exists in normal communities three times as much active tuberculosis as is usually under observation. In most communities 20 per cent of the tuberculosis cases first come to the knowledge of the health authorities when reported at death. How very small is the percentage of surgically curable cancer that is detected in time!

Few indeed are the individuals either adults or children, in city or country that ever receive an annual medical inspection which is so essential to the detection of early disease and the advancement of proper living.

These are faults, not of the rank and file of the medical professions but rather the fault of

all of us who have not yet learned to pull together as communities. In this connection, one should not overlook the important work begun in many public schools to care for the health of the children—in such ways as having their teeth, eyes and throats examined and weighing them in an effort to discover if they are receiving proper nourishment.

All the various agencies as public health departments, schools, official and unofficial organizations will be needed to combat and keep down the numerous disease enemies of society. Meantime each individual family in town or country can do much for themselves and for their own communities by observing carefully well known rules of health. These winter months are the ones when epidemics of influenza, scarlet fever, typhoid fever and many others, are most likely to occur. Therefore it will be the part of wisdom to take heed of what we are doing. These are some of the things you may easily do but will you?

1. See that the drinking water is pure.

2. Have plenty of fresh air in sleeping rooms and in living rooms at all times. It is needed as much on cold days as on warm.

3. Have the teeth of all members of the family examined by a dentist. Astonishing discoveries are sometimes made by the dentist.

4. Let the sunshine in whenever it appears. It is a great disinfectant.

5. Avoid getting chilled by wet clothing or by exposure of feet. (But how we hate to wear rubbers.)

6. Proper exercises every day rain or snow, it is important.

7. Finally, don't let the fact that falling prices keep you from paying Uncle Sam an income tax worry you too much.

Now when Furs are needed more than any season in the year FRANK BYRNS has a larger stock than at any previous season. They are priced right, and will prove a good investment.

SUIT BROUGHT TO QUIET LAND TITLE

Sylvester Sheppard Asks Court to Set Aside Trust Deed.

In the circuit court a bill has been filed by Sylvester Sheppard, directed against Pearl Gunn and other defendants in an action to quiet the title to certain real estate. It is the statement of the petitioner that he is the son of the late Joseph J. Sheppard, who was the owner of land in -13-10, to which he executed and delivered a quit claim deed made to the petitioner in December, 1914. It is further shown that in July, 1906, Joseph J. Sheppard executed a deed of conveyance to John S. Sheppard upon trust, to the peaceable and already referred to, and provided that the said John S. Sheppard as trustee was to convey the same at the death of Sylvester Sheppard to the widow and the children of the said Sylvester Sheppard.

This deed, it seems, was recorded by Joseph J. Sheppard, the father, but he did not deliver the same to John S. Sheppard, trustee, or to any other person. The deed was without consideration and was held by the said Joseph Sheppard until the time that he made and delivered to Sylvester

Sheppard the deed of December, 1914. The petition goes on to say that altho the deed referred to was not delivered, that by means of its having been recorded that a cloud is cast upon the title to the real estate. It is therefore the wish of the petitioner that the court enter an order having the deed of conveyance from John J. Sheppard to John S. Sheppard upon trust set aside. The defendants named are Pearl Gunn, J. R. Sheppard, Neva Luke, Byron Sheppard, Julian Sheppard, Inis Sheppard, Alben Sheppard, Susie Sheppard, Mary A. Sheppard and John S. Sheppard, trustees.

W. N. Hairgrove is attorney for the complainant.

FRELING GORDON LOOKED DOWN PISTOL BARRELS

Freling H. Gordon, formerly of this city, who is an assistant in an A. & P. store at 5301 Dearborn street, Chicago, had an unpleasant experience one night recently. Two holdup men, armed with automatics, appeared on the scene just about the closing hour. They made the former Jacksonville young man and the manager of the store "stick 'em up." Then the intruders proceeded to go thru the pockets of the store men and also robbed the cash register.

They had no trouble in making their get away altho the matter was reported promptly to the police department. Robberies and holdups are now of such common occurrence that the stores, especially in the outskirts, are taking unusual precautions to avoid losses from this hands-up method.

ADVENTISTS ARE
OPPOSED TO ALL
SUNDAY BLUE LAWS

Assert That Separation of
Church and State
Essential

ABBATH KEEPING
RELIGIOUS DUTY

(By The Associated Press)
WASHINGTON, Jan. 15.—Sun-
day blue laws are described as
enforcement of civil power into
the spiritual realm in a memorial
adopted by the general conference
committee of Seventh Day Adven-
tists made public today at its head-
quarters here. Opposition to all

Sunday laws is declared, particu-
larly to proposed federal enact-
ments.
Asserting that the complete
separation of church and state
was essential to the countries well
being the memorial declared that
failure to recognize this distinc-
tion in the past had been the pri-
mary cause of religious persecu-
tions.
"Sabbath-keeping is not a civil
but a religious duty," the memori-
al declared. "Congress therefore
has nothing whatever to do with
the question of its observance."
"Honest labor is no more uncer-
tain on Sunday than on Monday. It
is only religious prejudices which
are distributed by labor on this
day more than on other days."

Bobby Sibert who has been quite
ill at Passavant hospital for the
past several days is improving and
was able to sit up for a while yes-
terday.

LEAGUE VOICES
OPPOSITION TO
SHORT SELLING

Letter of President of the
Equity League
Read

WOULD STOP ALL
SPECUULATION

By Associated Press.
WASHINGTON, Jan. 15.—Oppo-
sition to short selling and every
form of purely speculative future
trading was voiced in a brief from
John M. Anderson, president of
the Equity Co-operative League of
St. Paul, Minn., which was read
today before the House agriculture
committee by Representative
Young, Republican, North Dako-
ta. This organization which was
said to represent 21,000 stock-
holders and 400,000 customers,
all farmers of North Dakota,
Minnesota, Wisconsin and Monta-
na declared thru the brief from
Anderson that "hedging" ought
to be preserved. "If it can be
separated from the riot of gambl-
ing transactions now carried on in
all organized grain exchanges."
The House committee is consid-
ering bills to regulate the ex-
changes.

Farmers Should Hedge.
"If future trading has in it all
the merits claimed," Representa-
tive Dickinson, Republican, Iowa,
declared, "the practice should be-
come universal among the produc-
ers of these commodities and the
farmer should hedge his grain be-
fore he plants his crop."
He asked for legislation which
would prohibit short selling on the
exchanges, barring future sales
for a longer period than ninety
days permitting speculative sales
to continue for a period of thirty
days and the regulation of price
statistics and all information re-
specting factors affecting the crop
by government control.

Representative Steenerson, Re-
publican, Minnesota, urged enact-
ment of his bill which would make
all exchange public markets and
admit co-operative farmers organi-
zations to their floors.

NORTHMINSTER SERIES
WILL CLOSE TONIGHT

Final Services in Special Series to
be Held Today—Dr. Spoon-
s Preached From Theme "No
Room for the King."

The audience which assembled
at Northminster church last
night was a large one for Satur-
day evening. As usual, a song
service preceded the sermon, a
number of hymns being sung by
the large chorus. It was an-
nounced that the usual services
will be held today. Tonight Dr.
Spoons will speak on "The
Great Needs of Jacksonville." It
was also announced that the spe-
cial services will close tonight.
At 4 o'clock yesterday after-
noon the "Do Right" chorus met
at the church. There were sev-
eral hundred children in attend-
ance and a most inspiring pro-
gram was carried out. Later a
banquet was served for the chil-
ren.
The sermon last night was
based upon the theme "No Room
for the King." The minister
spoke of the tendency of men
and women to make room in their
hearts and lives for everything
except Christ. He made an ear-
nest plea to those in the audience
to make Christ the King of their
lives and to let all other things
take a secondary place.

FARM MEN TALKED
ABOUT BIG SUBJECTS

Great Interest Shown in Trans-
portation Problem — Associa-
tion Working Along Some
Lines Without Publicity.

Morgan county delegates to
the convention of the Illinois Ag-
ricultural association found the
sessions very profitable. Charles
S. Black and H. E. Kitzer were
the delegates from the Morgan
county farm bureau. Others who
attended were Frank E. Drury,
member of the livestock com-
mittee; H. J. Rice, County Agent
Kendall, Associate Agent Rucker
and Paul Black.
It was a business convention
and there were sessions or com-
mittee meetings morning, after-
noon and evening during the two
days. In the choice of the exe-
cutive committee each congress-
ional district is entitled to a rep-
resentative and R. W. McNeal of
Cass county was chosen from this
district, taking the place of J. R.
Fulkerson of Jerseyville, who re-
quested that he be relieved from
further duties because of in-
creased private interests.
Charles S. Black in talking of
the association meeting yester-
day said that there was no doubt
about the maintained and in-
creasing interest in the associa-
tion work and that the delegates
made it plain that they have faith
that the association will be able
to bring about the improvements
in agriculture and livestock con-
ditions that are so greatly de-
sired.
There was special discussion
relating to marketing and trans-
portation. One of the most in-
forming addresses was that by
Clifford Thorn, director of the
transportation department of the
American farm bureau federa-
tion, his theme being, "Farmers
and Railroad Transportation." Mr.
Thorn discussed very freely
some transportation abuses which
are costly for the farmers and for
all consumers.
While definite reports of some
activities were not made, it is
known that several committees
of the state association are working
along definite lines and are se-
curing facts preparatory to rec-
ommending certain program of
action which will be beneficial to
farmers and the public.

CLOSE DOWN ORDER
FOR C. P. & ST. L. SHOPS

An order effective yesterday
practically closed down the C. P.
St. L. shops. One hundred and
seventy-five employees are thus
laid off in accordance with in-
structions received by Supt. Imgrund.
One man in each department and
a few hostlers and engine-men have
been retained, totalling about 25.
However, it is understood that the
layoff will probably not be of long
duration. There is plenty of work
to be done, as several hundred
cars need repairs. The shutdown
order is said to be the result of the
general slump in freight business
of the road and the correspond-
ing reduced revenues.

The Economy of Buying Our Guaranteed Rubber

Long wear, long life, long service.

It is cheaper to buy one 2-year Hot Water Bottle or Fountain Syringe for \$2.50 than it is to buy three low-grade articles at \$1.00 each—and which may not wear six months.

A good piece of rubber will wear well and keep its stretch. It is a safe article—not likely to spring a leak when in use.

The reason our guaranteed rubber goods are so good is that they are all rubber.

COOK COUNTY ROW CENTER OF INTEREST

State Auditor Russell Asks for Court Ruling to Determine His Course With Reference to Production of Records.

State Auditor Andrew Russell has been the central figure in a stormy political battle waged in Chicago and Springfield the past week. An effort has been made by the state's attorney of Cook county to require Mr. Russell to present certain documents and vouchers before the grand jury in Chicago. These papers relate to a charge made of certain alleged illegal payments from Attorney General Brundage's office. The attorney general gave an opinion to Mr. Russell advising him that it would not be proper for him to transport to Cook county the records of his office, which are sought. Matters relative to this case which have been brewing for some time past, came to a climax Friday in Chicago when hearing was had before Chief Justice McDonald of the criminal court. This hearing came on application for an order to compel Mr. Russell to produce the vouchers of his office. Mr. Russell was represented by John

Barbarossa, King Frederick I, a man of robust health was the original discoverer of the Cy-co formula. He sailed the high seas at eighty, directing the fortunes of his empire. Take Cy-co—it keeps the body young.

J. Reeve of this city as his personal attorney, and James H. Wilkerson, until recently chairman of the state public utilities commission, appeared in behalf of the attorney general. State's Attorney Crowe made the plea for the prosecution.

At the conclusion of the argument Judge McDonald took the case under advisement. Mr. Reeve has been in charge of the case on behalf of Mr. Russell for a number of weeks past, and after thorough investigation of the matters relating to the case Mr. Reeve suggested that the best course for Mr. Russell to follow in his difficult position was to request that the matter be submitted to the Chicago Court and the records produced if the court entered an order so instructing.

It is understood that the whole proceeding is a part of the bitter political warfare in which certain Chicago politicians are engaged. Some further facts about the interesting case appear from the following paragraphs taken from the Chicago Examiner of Saturday. The Tribune carried a story practically the same in effect. Mr. Russell's position in this contest is made clear in paragraphs also quoted below from Mr. Reeve's letter:

"Assistant Attorney General Clyde L. Day paid two large sums of money that were used in securing William ('Paddy') Fox, whose perjured plea of guilty resulted in the 1919 primary law being knocked out by the supreme court.

"This charge was made by State's Attorney Crowe yesterday before Chief Justice McDonald of the Criminal Court. He made the charge in arguing that an order be entered compelling State Auditor Russell to produce vouchers of his office for the purpose of corroborating his information in the special grand jury investigation.

Hoynes Aid Named. "Mr. Crowe said the money had been turned over to George T. Kenney, secretary to former State's Attorney Hoynes. It was the first time that he has named any one person as handling the money that kept the ex-convict out of the jurisdiction of the court while an investigation of an alleged conspiracy to have the law held unconstitutional was being made.

"On a previous occasion, he did say that \$6,000 of the state's funds were drawn by Attorney General Brundage to finance the expenses for Fox and an operative of the Thiel Detective Service while they sojourned in the country, and that this was the basis for his demand for the canceled vouchers.

Involves Prominent Men. "The grand jury is investigating a crime against the people of the state of Illinois, and I have evidence to show that prominent lawyers and public officials conspired to get an ex-convict to plead guilty to illegal voting when he didn't. State's Attorney Crowe said.

"We have evidence that when rumors were circulated that the public had been imposed upon a private detective agency was hired to take this ex-convict out of the state.

"And he was kept out of the state, altho a capias for his arrest.

rest on a robbery charge was here in the sheriff's office.

Charge Is Challenged. "I have further evidence that this agency was furnished large sums of money to keep him out of the jurisdiction of the court. The source of this money was charged to Attorney General Brundage."

"Attorney James H. Wilkerson, former member of the Public Utilities Commission, was in court as special counsel for the attorney general, and he interrupted with a question as to whether the state's attorney was citing facts set up in the petition for the entry of the order or whether he was revealing grand jury secrets.

Cites "Public Right." "I have been asked what was the purpose of the demand for the vouchers," retorted the Prosecutor. "I want to find out if public funds were used in carrying out this conspiracy. The humble citizen has the right to look at public records, and I think the Grand Jury should have the right. We don't know what particular document will disclose these facts, and for this reason we would like to have all the vouchers that went thru from May 5, 1920, to December 22, 1920."

"The Attorney General's office is fighting tooth and nail to prevent a submission of the records. Mr. Wilkerson was assisted by Charles F. Mansfield, Assistant Attorney General, and Attorney John J. Reeve, personal counsel for Mr. Russell, in his argument to not allow Grand Jury inspection of the records.

"Being placed in the 'middle' by a decision of the State's Attorney that he must produce them or he would be adjudged in contempt of court, and one to the contrary by the attorney general, Mr. Russell appealed to Chief Justice McDonald for a ruling.

"He had previously testified before the grand jury that he had failed to find among his records any canceled vouchers pertaining to the Fox case. It was then that Prosecutor Crowe made a demand for all documents for the certain period. Mr. Russell didn't object but his counsel did, in supporting the attorney general's office.

Writ Called "Dragnet." "Attorney Reeve attacked the state's attorney's petition and subpoena duces tecum as insufficient, in that they did not contain a proper description of the papers wanted. He characterized them as a 'dragnet.'"

Attorney Wilkerson, who also was former United States District Attorney, and one of the highest fee lawyers in the city, argued that the basic law upheld by the Supreme Court, is that a court will order furnished only such records as are specified. He said the general rule is that the courts do not override the heads of state departments who believe surrender of such documents would be detrimental to public interests.

Edward S. Day, first assistant state's attorney, stated that Mr. Russell was willing to give up the records, providing a court order was entered protecting his interests as a public official.

Letter From Mr. Reeve.

Andrew Russell,
Auditor of Public Accounts,
Springfield, Illinois.

My Dear Mr. Russell:

You have advised me that on December 23rd you were served with a subpoena duces tecum to appear before a Grand Jury in Cook County, and to bring with you vouchers issued to certain parties, and all of the vouchers, books and papers in your possession as Auditor of Public Accounts pertaining to the vouchers and accounts charged against the appropriation of Edward J. Brundage, Attorney General, from May 5, 1920 to December 22, 1920.

I am also advised that Mr. Brundage, who, under the Constitution, is the legal advisor for all State Officers, has advised you that you should not obey the subpoena, and that to obey the subpoena would be to violate your duty as Auditor of Public Accounts.

I am also advised that the State's Attorney of Cook County

holds that it is your duty to literally comply with the subpoena, and that in case you do not comply with the subpoena and bring before the Grand Jury the vouchers, etc., mentioned in the subpoena, that he will apply to the Circuit Court of Cook County for an order on you to show cause why you should not be attached as for contempt of court.

This places you between two fires. You do not desire to be placed in the position of in any way obstructing the machinery of the court, nor do you want to be placed in the position of in any way violating your oath of office as Auditor of Public Accounts.

I would advise that the State's Attorney of Cook County be requested to make application to the court having charge of the Grand Jury for an order upon you to produce the documents which the subpoena designates, or which the State's Attorney may desire to have you present, and that the matter be submitted to the court and order of the court obtained, directing you in what manner to proceed.

Under our form of legal procedure, the court is always the final arbiter in matters of this kind and in your position, when eminent counsel representing the different interests, so clearly differ in their views as to what your duty might be, I am of the opinion that the only proper thing for you to do is to request that the court shall determine what your duties are in the premises.

Yours very truly,

JOHN J. REEVE.
Mr. Russell acted upon Mr. Reeve's advice and addressed letters to Attorney General Brundage and State's Attorney Crowe advising them of his position in the matter and his wish for a court order outlining his proper course of action.

PAINTINGS EXHIBITED AT STRAWN'S MEMORIAL

Again the Art association has thrown open the hospitable doors of Strawn Memorial and invites Jacksonville to share the enjoyment of a splendid exhibition of contemporary American oil paintings sent out by the American Federation of Arts of Washington, D. C., and brought here through the largesse of the Strawn Endowment. To say that an exhibition comes through the co-operation of the American Federation of Arts is in itself a guarantee of merit, and the present showing has some excellent examples of the work that painters are doing in America today. There are pictures by artists of different periods and of diverse temperaments, and it is interesting to note the variety of methods that express their individual point of view as well as the decorative and romantic possibilities of modern life. While art yesterday was representative, today it is suggestive in its line of thought and opens up avenues of approach to every student. We bring to our judgment of pictures and all art whatever has happened in life to make us what we are, and our interests and reactions vary in relation to that experience, so it is fortunate that an exhibition may be of such a varied nature as to gain a response from every one. In this regard the present exhibition should have a rather universal appeal.

Perhaps the best canvas shown is Van Ritschel's "Light Across the Sea," which is a fine Marine in his best manner. It is very expressive of the elemental forces of nature and has a translucence of color that is intriguing and enchanting. Ritschel is one of the three or four great marine painters of today and may be profitably studied. "In Ambush" by Irving Couss, is another of the pictures that has a most distinctive quality. It is beautiful in design and coloring, interesting in motif and sufficiently modern in technique to beguile one's interest very continuously and to the writer it has qualities that surpass some of the pictures that have brought fame to Mr. Couss. Another of the best pictures is "Quiet of Evening" by Davis—a very beautiful transcription of a nature moment that shows the perfection of technique and conception that marks his work and makes it distinctive. With this group of pictures belongs also "Winter Caprice" by John F. Carlson; it is a lovely winter canvas that expresses atmospheric qualities to an unusual degree and has the charm that makes for continuing interest, the we do wish he had left out the wagon in foreground. There are other snow scenes; a very good one by Everett Warner, and another splendid exam-

ple of the work of Walter Palmer.

Of the figure paintings—Gertude Fiske's "Ann Reading" is a very sympathetic and skillful rendering of an interesting design and color scheme, and Randall Davey, who is one of the younger moderns in art, sends his "Dan Stevens," a very well painted direct piece of workmanship that quite interprets the character of the subject. "Fath-erhood" strikes a rather unusual note, and will have a strong appeal to many, the rather bizarre in conception and finished in execution. The child is rather beautifully painted and there is a wholeness that is very human and a degree of understanding between father and child that is quite lovely. Whittemore's "Sunbeam" has lovely color qualities and there is a charming little nude by Edward Dufner which is very open and out-door quality that is exceptional.

A picture by Gardner Symonds, quite different in type of subject and color from his usual exhibition pictures; several of Charles Warren Eaton's that will appeal to those who want a harmonious tonal picture; a "June Day" by Paul King that has a fine atmosphere; an interesting wood interior that suggests the Michigan woods by Wegand; a most interesting picture, "When Night Comes On" by Rouland, and a splendid Gloucester subject by Carl Nordell, and quite a number of other pictures will be of interest and pleasure.

The exhibition will be open to the public until Thursday, and it is an opportunity and privilege that merits the interest of all Jacksonville, for each one's interest adds that much more to the increasing interest in American painting.

You Want a Quality Stove

There are no "pure food" laws to govern the manufacture of stoves and kindred articles in the hardware line. It is left to the merchant in each town to do his own discounting—to separate the chaff from the wheat for his own and his patrons protection.

There is hardly another article of household use which receives such hard usage as a stove. Fuel is thrown in; ashes are shaken down; doors are slammed. To stand this constant wear and tear, a stove must be of best quality.

We offer the public "THE ESTATE" stove as an article of highest quality. It has been put to every test in the community—by ourselves and by our customers. It has proven its worth in every instance—has convinced us that it is the highest quality yet attained in stove building.

If you are interested in a "Stove of Quality", either range or heater, come in and let us talk the Estate line to you.

Bank Spirit

The foundation upon which "Bank Spirit" must be built, if it is to be a sound and lasting thing, is the foundation of the fair deal. It is an old principle, but one which must be newly applied and constantly woven into the fabric of an organization.

This Bank so genuinely believes in the truth of this principle, and has in the past made so great an effort to make it a part of its every day life, that it believes even the caller upon casual matters cannot but notice in every department, that spirit of readiness, helpfulness and fairness, which makes true "Bank Spirit."

Matters of great importance may take longer study, require more consideration than the routine business detail, but it is the application of "Bank Spirit" to routine affairs which largely indicates what may be expected in problems of considerable moment.

ILLINOIS WINS FROM M'KENDREE

Defeated Visitors in Exciting Game by Score of 21 to 19—Game Was Anybody's Until Final Whistle.

As is always the case when Illinois College and McKendree meet at basketball, the game in David Prince gymnasium last night between the teams was filled with exciting moments. When the final whistle sounded, Coach Harmon's men were on the long end of a 21 to 19 score.

The game started off with a rush. Illinois immediately took the lead but were never more than four points to the good and for the most part not that much. McKendree was always dangerous and it was only when the last whistle sounded that the game was won.

At the end of the first half the score was 15 to 12 in favor of Illinois. But in the second half McKendree scored seven points to Illinois six.

Both teams were off in basket shooting. Time and again the ball rolled around the hoop and dropped outside and in some instances went down inside and jumped out. Neither Antrobus or Garrett were good on free throws else the scores of both teams would have been larger.

Many personal fouls marked the game. This was especially true of Illinois. Jones was sent to the sidelines for four personals. Ransdell took his place, but scarcely got warm before he was disqualified for personal fouls. He was replaced by Slack.

Mellon, Cully and Antrobus played good ball for Illinois. The work of Cully was especially good and he scored two field goals. Mellon more than held his own with the McKendree center.

Waggoner was easily the star for the visitors. He played here last year and his work last night was brilliant. He was especially good at dribbling, at one time going the length of the floor, thru the entire Illinois team and caging a basket.

Coach Lawrence had practically the same team with one exception that played here last year. However, it was McKendree's first game and they naturally were not in the form they will show after more practice. But at that, they have had almost as much practice as Illinois as it was only the Blue and White's second game.

The Illinois seconds played a game with Brown's Business college as a curtain raiser to the main event, winning by a score of 27 to 13. The scores:

SISTER OF CHARITY ARRIVE IN CHINA

Kaifeng, Tonan Province.—(Correspondence of The Associated Press.)—The first group of Sisters of Charity to come to China, a party of six, who are members of the Order of Divine Providence and come from St. Mary's-in-the-Woods, Indiana, arrived here early in December to establish a mission of the order and open schools in Honan.

The six sisters were chosen from 300 who had volunteered for service in the Far East. They have arrived in China just 80 years after the first sisters of the order came from France to America.

A number of day and boarding schools and a high school for Chinese girls will be opened by the sisters in the coming year. A dispensary also will be opened by Sister Mary Elise, who is a qualified pharmacist.

LEGION PROPOSES MANY CHANGES

Rededication of Soldiers and Sailors Home to Veterans of World War—Will Suggest Many Improvements.

SPRINGFIELD, Ill.—(By The Associated Press.)—Rededication of the Illinois Soldiers and Sailors Orphans Home at Normal to the veterans of the world war, provision for the admittance of their children to the institution and a general physical and administrative program which the American Legion will present to the 52nd general assembly. An outline of the proposed legislation is given by W. R. McCauley, department commander, for Illinois.

Amendments to the laws governing the institution which will be proposed by the American Legion also call for:

Raising the age limit of discharge from the home from 16 to 18 years.

Courses in the state normal schools and the state university for children showing aptitude.

Institution of vocational training.

Repeal of that part of the statute providing for the admission of dependent children other than those of veterans with provision to keep those dependent children now in the home and treat them exactly as veterans' children.

The American Legions program of legislation and recommendations was announced following a survey of the home by a committee composed of Col. George E. Lee and Early Gary of Chicago, and T. F. Harwood of Bloomington. This committee was named at the legions state convention in Chicago in October.

The practice of removing children from the soldiers' orphans' home and placing them in private homes was declared by the committee to be a "blot upon the fair name of Illinois and nothing short of criminal," because it was declared children "are turned out at a tender age with practically no education, unfitted for any practical work. The boys are placed, to a large extent on farms and the girls go out as housemaids."

Provision for the care of 1,500 or 2,000 children within ten years is recommended by the committee.

Following its criticism of the institution the committee recommended a building program to provide additional cottages and nurseries, a swimming pool and gymnasium equipment, a new power plant and new furnishings for the cottages. The committee added:

"We may appear a bit forward in bringing attention to conditions at the Soldiers' Orphans' Home, but we are vitally interested. We expect our children to be admitted exactly as the children of other veterans of other wars. The home is not an asylum or a reformatory. It should be an educational institution of the highest order."

There are now 356 children in the home, 79 of whom are dependents. 72 children of Spanish-American war veterans, 19 dependents of civil war veterans and 6 children of regular army men.

"The Legion will not endorse anybody for superintendent of the institution," said Mr. McCauley. "We are interested only in better legislation for the home and proper supervision of it. Monthly visits will be made by Legion representatives."

The American Legion's bills have not been prepared. They will be introduced by Senator Frank O. Hanson, of Bloomington, and Representative Earl Searcy of Springfield.

MAID OF THE MOVIES CAST IS ANNOUNCED

Comprises Some of the Best Talent in the City—Production Promises to Be Unique in Character.

The imposing list of participants in "Maid of the Movies," the snappy musical revue which is to be presented by the members of Trinity church, promises to add two enjoyable evenings at the Grand theater, the 25th and 26th.

The city of Jacksonville has been combed for the best talent available.

The selection was very good as there have been several home talent shows put on in late years. The cast and chorus groups have been filled in a way to greatly gratify the director from Chicago, Miss Madge McKinly, and to make a first-rate success of the whole affair. This revue might be termed a "revue musical comedy, Cook tour," as the itinerary is extensive.

It ranges from a peep at red life in a moving picture studio to the seduction of a fashionable home, where the proudest troubles of a bridal pair are disclosed and settled.

The auditor is taken to the picturesque of "Long Ago," catches a glimpse of quaint Holland, a parade of Palm Beach beauties and a wealth of Georgian grace. A grand finale tableau rounds out this pleasant journey. The whole provides a diverting procession of color, motion, dancing and singing which will be well worth while to all kinds of people and every different taste.

CONSERVATORY NOTES

There will be a Students' Recital on Friday afternoon, January 21st at 4 o'clock. The public is cordially invited to attend.

Jules Falk, violinist, was a visitor at the Conservatory the past week. Mr. Falk came to Jacksonville from Bloomington, where he had given a recital, and was on his way to Hot Springs, Ark., where he will also appear in concert.

The following article was written by the musical critic of the principal newspaper of Dayton, Ohio, on Dec. 29th: "Edmund Munger, pianist, and Clayton C. Quast, baritone, both of Jacksonville, Ill., gave a very interesting jointrecital in Dayton yesterday afternoon."

"Mr. Munger, who has become a favorite with Dayton audiences, played three most interesting groups. His Chopin numbers, especially, showed the pianist to advantage, and he gave proof of his splendid technique and beautiful phrasing."

"Mr. Quast won merited approval for excellent singing of several groups of songs and a Handel aria. His voice, rich-toned and smooth, is under complete control, and he interpreted his numbers with a spirit of exaltation which is so often lacking. He sang with artistic feeling unmarred by any touch of pose."

"Both artists scored a genuine and deserved success."

At the Students' Recital given last Friday afternoon, January 14th in Recital Hall the following program was performed:

AMERICAN LEGION
STRONG ORGANIZATION

Illinois Stands Second in Membership — Work Has Been Wide and Varied.

Springfield, Ill., Jan. 15.—(By A. P.)—The American Legion in Illinois has grown so remarkably in the past year that today it is one of the largest and most powerful organizations in the state.

Second in membership to only one state in the Union — New York — the American Legion of Illinois, according to William R. McCauley, department commander, today is composed of 693 posts with a total membership of approximately 79,000 ex-service men and women. This does not include the 150 auxiliary units, composed of wives, mothers and sisters of ex-service men.

On Jan. 1, 1920, the legion had but 267 posts in the state. Cook county and Chicago, Commander McCauley's annual report shows, have 140 posts and a membership less than 55 per cent of the total membership of the entire state.

The work of the American Legion has been wide and varied according to the state commander. It ranged from assisting some unfortunate "buddy" out of jail to the conducting of a funeral for a hero who lost his life in France.

"Our main work during 1920 was service work," said Commander McCauley. "We helped the ex-soldiers adjust their war claims; helped the disabled veterans in hospitals and let actual organization work take care of itself. We believed that by helping our comrades, they would see the good of the organization and join voluntarily."

"During the past year we made a survey showing that approximately 4,500 disabled or ill ex-soldiers were confined in 72 state institutions."

Hospital Conditions Bad.

In some of the hospitals conditions were deplorable, we found, and we took necessary steps to correct those conditions. In some hospitals were found the food being served the ex-service men was not the best; that was corrected and now they are getting the best. The National commander told me the other

day that Illinois had done more service work than any other state.

The Legion maintains a service office in Chicago under supervision of John A. Hartman, assistant to William Q. Seiffert, department adjutant. This office, according to Commander McCauley, handled approximately 2,000 war claims for ex-soldiers each month during 1920. In addition, it arranged for a military funeral for every soldier who died in France and whose body has been brought back to Illinois. Several days ago, that department conducted 45 such military funerals in Chicago alone. R. G. Chapman has charge of all funeral arrangements, such as the furnishing of pallbearers, firing squads, etc.

A corps of workers is kept busy at the state headquarters here. New York has approximately 4,000 more members than Illinois, Pennsylvania is third, Ohio fourth and Massachusetts or California, fifth.

MUCH SICKNESS

However, Literberry has had its share of illness, there having been seven cases of pneumonia and six cases of scarlet fever reported recently. The epidemic of sickness has necessitated the closing of the school and the discontinuing of church services for the present. It is hoped that normal activities may be resumed in the near future.

SOCIAL SERVICE LEAGUE NOTES

The Loan Chest is once more at anchor in our harbor after an extended visit to the tuberculosis clinic. The chest is the property of the Woman's Club and its use is supervised by that club's social service committee. It has accordingly journeyed from place to place according to the decision of each successive chairman as to where it could be used to the best advantage. In this way it came about last year that the big roomy chest was quartered in the clinic rooms while its legitimate contents occupied crowded boxes in one of our cupboards. It is good to have them united once more. While the League makes no claim whatever to either chest or contents we are glad to give them room and to oversee their use according to the committee's directions. Mrs. Keith Montgomery, who is the present chairman, is planning a meeting of her committee in our rooms Monday to take up the work of replenishing the chest.

This is bad weather for holey shoes and, whether the fault lies with the war or the shoemakers, holes come this year with outrageous frequency. Small feet that were newly shod in November have already walked quite thru their soles. It is three good months before bare feet will be the least bit comfortable, our shoe drawers are almost empty of school sizes and the fat shoe fund of \$86.00, contributed at Thanksgiving time by the pupils of the public schools, is melting like a snow bank in April. We are heartily hoping that someone will be minded to replenish it.

The Case committee was glad to welcome at its meeting last Monday the new head of the Red Cross work, Miss Clara Arthur. The committee decided upon one meeting a month for the future, to be held on the first Monday afternoon of each month. There are a half dozen of the members of the League by individual families, visiting and encouraging them and reporting their needs or their progress to the committee, or if necessary, between meetings, to the superintendent. We should be glad of more such help.

A quarantine of five or six weeks is a serious annoyance under any circumstances, but it means real distress when the wage earner is shut in with the rest and the family income ceases just when it is most needed. Two such cases are just now under the care of the League. We persuaded the county to furnish groceries for one and the city for the other and generous neighbors are also helping in each case. We are waiting with all the patience we can muster for some higher authority to decide the question as to who is responsible for the maintenance of a destitute family during quarantine.

ASBURY SUNDAY SERVICES.

Public worship will be held at 11:30 a. m. Sunday school at 10 a. m. G. W. Randle, pastor; L. A. Reed, S. S. superintendent.

There will be a free exhibit of oil paintings Sunday afternoon 1:30 to 6 o'clock at the David Strawn Art Home 331 West College avenue.

SOUTH CAROLINA COUNTIES
CLAIM DIVIDEND COWS

Clifton, S. C.—Two South Carolina counties are laying claim to having champion dividend-producing cows.

Word from Ft. Aitchison, Wis., a dairy center, says this is the first instance of a cow having borne two sets of twins in one year, as far as is known there.

For Two Weeks Only

We will allow \$7.00 for your old 6 volt Battery or \$11 for your 12 volt, regardless of condition, on a NEW UTILITY BATTERY.

Why should you buy a Utility Battery for your car? **READ THE ANSWER**

UTILITY BATTERIES are guaranteed in writing for two years.

UTILITY BATTERIES can take a charge quicker than any other Battery.

UTILITY BATTERIES can be charged as high as six times the normal charge rate.

UTILITY BATTERIES give a higher momentary discharge than any other battery.

UTILITY BATTERIES can be overcharged for a long period without any effect on the battery.

UTILITY BATTERIES can be discharged at 50 times the normal discharge rate.

UTILITY BATTERIES are made with special acid-proof perforated hard rubber separators which firmly hold the plates apart, allow free circulation and prevent short circuits, instead of wood separators, which cause 50 per cent of all battery troubles.

UTILITY BATTERIES are the ONLY ONES so constructed that PERFORATED SEPARATORS can be used between the plates.

UTILITY BATTERIES cost no more than other makes, last twice as long, cost less for upkeep and give the user better service than any other battery on the market today.

The above points have been fully demonstrated in service and are backed by our positive Guarantee which only excepts freezing and breaking.

Why not buy the best, when they cost no more than the other kinds?

We investigated the claims made by the manufacturers of the UTILITY BATTERY and found them to be absolutely sound.

We saw proven under actual test that the UTILITY BATTERY, with its all rubber, perforated and rubber separators and its specially constructed plates manufactured by a secret process, would perform a service unequalled by any other battery.

We also took into consideration that we could absolutely guarantee the UTILITY BATTERY for two years of satisfactory service. This is the guarantee of the manufacturer—this is our guarantee. A numbered and registered two years guarantee certificate is issued with each battery.

1921 INCOME TAX FACTS YOU SHOULD KNOW

Claims for deductions for losses form an important item in income tax returns and heretofore have been the subject of numerous errors. The mistakes are of commission and omission. Claim is made for a loss to which the taxpayer is not entitled. In other returns no claim is made for a deductible loss which, if included, would mean a substantial reduction in tax.

To be allowed, deductions for losses must be confined to the following classes: Losses sustained in trade or business; losses sustained in transactions entered into for profit, though not connected with a trade or business; losses sustained of property not connected with trade or business if arising from fires, shipwreck, storms, or other casualty, or from theft. To the extent any of the above losses are compensated for by insurance they are not deductible.

The loss must have been actually sustained during the year for which it is claimed in the taxpayer's return. A taxpayer may feel certain that real estate owned by him is worth less than the purchase price. A merchant may be convinced that certain stock can not be sold unless marked below cost. In neither event, however, is he entitled to a claim for deduction until the loss is made absolute by sale or other disposition of the property.

Must Follow Statute.

Claims for losses must conform closely to the wording of the statute. A loss sustained in the sale of an automobile purchased for personal use is not deductible, because it is not a transaction "entered into for profit." Many claims are made for losses sustained in the sale of property used by the taxpayer as a residence. Ordinarily, when a man buys a home and moves into it, he has no intention of selling. He does not "enter into a transaction for profit," and such a loss is not deductible.

Owners of stocks and bonds can not deduct from gross income amounts claimed as losses on account of the shrinkage in value of such securities through fluctuations of the market or otherwise. The foregoing applies only to owners and taxpayers, and not to dealers in securities, who by a special rule are given the benefit of any shrinkage in the securities in which they deal.

Losses in illegal transactions—poker playing, dice, horse racing, or other forms of gambling—are not deductible, although gains in such transactions constitute taxable income and must be included in the return.

Bad Debts.

While deductions for worthless debts are provided for by revenue

act, many claims entered by taxpayers are not allowed because of the nature of the obligation. Claims for such deductions must have certain qualities. The debt must have been charged off within the year in which its worthlessness was discovered; the return must show evidence of the manner in which discovery was made; statement should be made that the debtor has been discharged in bankruptcy or has disappeared, leaving no trace, or that the ordinary means of collection have been exhausted.

Unpaid loans made to needy relatives or friends with little or no expectation that they would be repaid are not deductible, but are regarded as gifts. Where the creditor continues to extend credit a debt may not be claimed as worthless. A debt may not be charged off or deducted in part but must be wholly worthless before any part can be deducted, though it may be clearly worth less than the face amount. If a debt is forgiven, it can not be deducted, because it is then regarded as a gift.

A debt proved to be worthless is not always a proper deduction. For example, unpaid amounts representing wages, salaries, rentals, or similar items of taxable income are not allowed as deductions unless included as income in the creditor's return for the year in which the deduction is sought for in a previous year. The fact that expected income was not received does not reduce the taxable income.

Payment of an ordinary debt need not be included in the taxpayer's return, since it is a mere change in form of capital. Where, however, a debt charged off as worthless is in a later year recovered or partially recovered the amount recovered is taxable income to the creditor for the year in which received.

ILLINOIS WOMAN GAINS 20 POUNDS

Jennings and Wife Are in Best of Health Since Taking Tanlac, He Says.

"When my wife saw—how fast Tanlac was building me up she started taking it, too, and now both of us are in the finest kind of health," said J. M. Jennings, foreman for the Decatur Malleable Iron Co., residing at 529 East North St., Decatur, Ill.

"My wife had fallen off until she weighed less than one hundred pounds, but now she weighs more than one hundred and twenty pounds. She had been in bad health for a long time and seemed to be on the verge of a nervous breakdown. She would have sick headache spells that she would have to go to bed. Her strength and energy seemed to have left her and she didn't have a bit of color in her face.

"I was in an awful fix, too. My kidneys worried me day and night and I had pains in my back that would extend down to my hips and I would get so stiff I could hardly get about. I lost my appetite and would have terrible spells with my stomach. My nerves were all unstrung and I was troubled a lot with nervous headaches. I had an awful time trying to get a little rest at night and of mornings I always got up with that listless, good-for-nothing feeling.

"I started taking Tanlac and before the week was up I was feeling better and stronger. I kept taking it and improving right along until my wife was convinced it was really helping me and then she started taking it. She began to get better right away and today I don't believe either of us were ever in better health. My wife looks like a different person and eats anything she wants.

"As for me I am never bothered in any way whatever now. My kidneys and back are in fine shape and I am eating anything I ever could and it never gives me any trouble at all. I sleep good and sound and when morning comes I am feeling fine and ready for work."

Tanlac is sold in Jacksonville by Coover Drug Co. and J. F. Shreve, Wyle Drug Co., Franklin and Waverly and leading drug stores in all cities.—Adv.

LOST and FOUND

Establishing a New Price Basis

The Reconstruction Period Is On.

Every Article in Our Store bears its proper reduction. You can shop here with confidence that prices are RIGHT

WE believe the era of high prices is rapidly passing. Production has overtaken demand and prevailing replacement costs are forcing prices downward. To meet this new condition it is our desire and intention to strike bottom in our first revision of prices.

This means a tremendous loss to us which is your gain. Those who know us know we are not special sale folks and we do not want you to confuse this price revision with the ordinary special ten day sale commonly employed by other merchants. Prices quoted in our stores will prevail until the goods now in stock are sold and will continue to prevail unless market conditions demand further revision. Many odd lots of lines to be closed out or discontinued are priced far below replacement cost. We invite you to participate in these money saving values and suggest you do not delay else you may be too late.

Note carefully every price quoted, make accurate comparison and you will be convinced of our superiority in the merchandising field and the tremendous advantage to be gained by placing your confidence in an institution doing each year approximately a fifty million dollar (\$50,000,000.00) business whose savings in quantity buying are passed on to its patrons.

You need now many items of dry goods, furnishings, shoes, clothing, and ready-to-wear apparel. Buy them—you can be sure our prices are right.
